

BoQ for Supply and Commissioning of Electrical and Electronics Laboratory Equipment

Kathmandu University
Dept. of Electrical and Electronics Engineering

17-May-19

Description of work

Intends to enhance the capacity of laboratories at DoEEE

Item Description	Quantity	Unit of Measure
1) DC Power supply		
Two channel 0 to 30 V DC 3 A and one fixed 5 Volt 2A	8.00	each
2) Digital multimeter		
DC AV Voltage and current, Resistance, capacitance and measurement	8.00	each
3) Digital clamp meter		
DC/AC Current measurement with power measurement	4.00	each

Notes:

It is mandatory to provide the manufacturer specification and technical detail for all the items.

Supplier selection shall be done based on the price and technical specification of items.
